# Best Stereo Amplifier 2011

**tone 2011** BEST OF THE YEAR **AWARDS**

### Best Stereo Amplifier

#### PERREUX AUDIANT 80i INTEGRATED AMPLIFIER

More NZ-made goodness here, the choice came down to Plinius' stonking Hautonga and Perreux's excellent Audiant 80i. The Audiant has an elegant yet modern touch panel equipped chassis, which wouldn't be entirely out of place in a chic design studio, while the built in DAC means it's digital friendly and can easily be fed from a computer audio source – you don't need a CD player to make music with this amp, just plug in your laptop. The Audiant sounds marvellous when paired with a set of high-quality speakers, which makes it a worthy winner in this hard-fought category.
